

Shaik Abdul Latheef

+91-8790088948 — latheef.oci@gmail.com

Summary — Experienced Oracle Cloud Technical Lead with 9 years of expertise in gathering requirements, designing, developing, implementing, testing, and maintaining applications using Oracle Fusion, OIC, VBCS, and ADF. Specializes in ETL processes and data migration with a proven track record of delivering complex projects, leading high-performing teams, and fostering innovation.

Experience

Version 1

Apr 2021 – Present

Technical Lead

- Led the team in scrum planning and developing the award-winning DM suite alongside other accelerators, using Oracle Fusion, OIC, and VBCS as technical solutions to business requirements. Thus, significantly enhancing the client's operational efficiency by 25% and reducing processing times by 30%.
- Implemented end-to-end data migration for 6 clients, offering valuable support through training, mentoring, and technical guidance to the delivery teams.
- Developed UI-rich web applications and Progressive Web Apps using VBCS and Redwood themes.
- Analysed and delivered POCs on OIC Integrations and Oracle AI Services.

Icon Plc

Aug 2019 – Mar 2021

Senior Technical Consultant

- Collaborated with business analysts, cross-functional teams, and stakeholders to understand and translate business requirements into technical solutions.
- Designed efficient and scalable OIC integrations to automate business processes and improve data consistency.
- Developed integrations using RESTful APIs and SOAP Web Services to integrate with external systems and maintained FBDI files for data migration and synchronization between Oracle ERP Cloud modules.
- Supported integration documentation, testing, and quality assurance processes to ensure high-quality deliverables.

Wipro

Dec 2015 – Jul 2019

Consultant

- Designed, developed, and implemented complex applications and user-friendly interfaces efficiently using Oracle ADF to meet the gathered business requirements.
- Oversaw the maintenance and deployment of ADF applications on Oracle WebLogic Server, streamlining the deployment process through the use of Git and Jenkins automation.
- Supported the production-level testing and documentation of the implemented projects, ensuring strict adherence to best practices and standards.
- Acquired proficiency in Oracle Cloud Applications and conducted comprehensive end-to-end data migration using HDL and FBDI.
- Created and tailored Oracle Fusion reports using BIP and OTBI reporting tools.
